

4. Home Care Packages

Home Care Packages can be provided for people who have complex needs that can only be met by a coordinated package of care, rather than individual services. Within these packages of care, people with dementia can nominate respite services to support their carer as one of their service needs. There are four levels of care within Home Care Packages (HCP):

1. Home Care Level 1: Supports people with basic care needs
2. Home Care Level 2: Supports people with low level care needs
3. Home Care Level 3: Supports people with intermediate care needs
4. Home Care Level 4: Supports people with high care needs

To access a Home Care Package you will need to first arrange for an assessment and approval by an **Aged Care Assessment Team**. This can be arranged by contacting **My Aged Care**
 Telephone: 1800 200 422 (8am – 8pm Monday to Friday, 10am – 2pm Saturday)
 Website: <http://www.myagedcare.gov.au/>
